

ANDREW SECTIONAL / CAPRI COLLECTION

FRAME

The Andrew Sectional is made of very durable European Hardwoods, Spruce and Beech. We wrap the frame with additional foam padding which will make the sides and backs very soft to the touch.

SUSPENSION

This is the only group in which we incorporate heavy duty, industrial strength elastic webbing as our suspension. This product holds 720 pounds of pressure per square inch. This seating system is also used extensively in the airline and automotive industries due to its strength and durability.

SEAT CUSHIONS

The Andrew Sectional is beautifully designed with loose seat cushions. The seat cushions are composed of a unique "down blend" combination of super soft Dacron, down and 2.0 density foam. The cushions are "**self-adjustable**," which means you can slide them in tighter for a more shallow comfort or loosen them up a little for a relaxed comfort level.

BACK CUSHIONS

This is the only collection that has loose back cushions. These cushions are also "**self adjustable**." You can position the back cushions however you wish according to your specific comfort needs. They are composed of 100% super soft Dacron fiber. These cushions are held tightly in place by velcro.

LEATHER

We only use 100% GENUINE Italian leather on all of our collections. We stock the Andrew Sectional in a beautiful 2511 Havana color. This leather has so much character. It also is a "sauvage" leather. The shades of brown, light and dark caramel make this leather a definite winner. You will love it!

KEY POINTS

This group is a classic retro style that is truly timeless. The small roll arm and the beautiful Havana leather accent the style beautifully. The comfort is the most unique of all the groups as you will definitely notice the down blend feel and comfort. You will also find the solid wooden leg very attractive. The armless chair adds versatility as you can put it on either side for an additional seat. You will want to be sure to remove all seat and back cushions before you try to assemble the sectional. Then you can position according to personal preference.
