

BENNETT GROUP / VERONA COLLECTION

FRAME

The Bennett group is made of very durable European Hardwoods, Spruce and Beech. We wrap the frame with additional foam padding which will make the sides and backs very soft to the touch.

SUSPENSION

We incorporate nine gauge sinuous **NO SAG** springs in the seating deck of this group. This is a very heavy gauge spring. You will find that each seat will have five springs stretched two inches apart, which will give the consumer years of strength and durability.

SEAT CUSHIONS

The seat cushions are loose which allow for so much versatility in use. We refer to these cushions as "down blend", incorporating foam, super soft Dacron and down. In addition we use a "**pocket coil**" seating system in the seat cushions. This allows for each seat cushion to work independently of one another allowing for maximum comfort. You can also adjust the comfort level of the seats by either securing the seat cushions tighter toward the back; giving a shallower pitch or sliding them out slightly for a more relaxed pitch for those with longer legs. This technique allows you to "**self adjust**" your seat cushions.

BACK CUSHIONS

The back cushions are fixed (sewn in). You will find the back cushions to be very soft and comfortable as we fill them each completely with 100% super soft Dacron. You will discover that this material will envelope you and hold consistency year after year after year.

LEATHER

We only use 100% GENUINE Italian leather in all of our collections. We stock the Bennett group in a beautiful 2552 Wheat color. This leather has so much distinctive appeal. The wheat color is so unique you will find it exciting. The leather is semi-aniline, which means we incorporate a polyurethane protective finish in addition to beautiful colorful character.
