

## BRANDON GROUP / PALERMO COLLECTION

### FRAME

The Brandon group is made of very durable European Hardwoods, Spruce and Beech. We wrap the frame with additional foam padding which will make the sides and backs very soft to the touch.

### SUSPENSION

We incorporate nine gauge sinuous **NO SAG** springs in the seating deck of this group. This is a very heavy gauge spring. You will find that each seat will have five springs stretched two inches apart, which will give the consumer years of strength and durability.

### SEAT CUSHIONS

The seat cushions are loose and are composed of a "down blend" combination of foam, super soft Dacron fiber and down. You will find these seat cushions to provide maximum comfort and support. The seat cushions also can be "self adjustable" for comfort and individual pitch preferences.

### BACK CUSHIONS

The back cushions are fixed (sewn in). You will find the back cushions to be very soft and comfortable as we fill them each completely with 100% super soft Dacron. You will discover that this material will envelope you and hold consistency year after year after year.

### LEATHER

We only use 100% GENUINE Italian leather is all of our collections. We stock the Brandon group in a beautiful 2042 Black color. This leather has so much character. The classic black color is so striking, especially accented with the muted silver nail heads. This leather is semi aniline, which means we incorporate a polyurethane protective finish in addition to beautiful, colorful character.

Please go to website at [www.lukeleather.com](http://www.lukeleather.com) or refer to catalog.

### MATCHING PIECES AVAILABLE

Sofa, Loveseat, Chair, ottoman

### KEY POINTS

You will find that many believe this group is our most stylish. The front rail is curved to give you a slight theater feel. The muted nail head treatment wraps around the entire piece and can be floated in a room, as the back is as beautiful as the front and the comfort is outstanding. The sides also are unique as we use a sharp button tufting design. We also use the same design on the front bottom rail
