

MARK GROUP / MILAN COLLECTION

FRAME

The Mark group is made of very durable European Hardwoods, Spruce and Beech. We wrap the frame with additional foam padding which will make the sides and backs very soft to the touch.

SUSPENSION

We incorporate nine gauge sinuous **NO SAG** springs in the seating deck of this group. This is a very heavy gauge spring. You will find that each seat will have five springs stretched two inches apart, which will give the consumer years of strength and durability.

SEAT CUSHIONS

The Mark group is beautifully designed with fixed (sewn in) seating. The seat cushions contain 2.0 density (highest quality) foam cores with a very light, super soft Dacron topper for perfect comfort.

BACK CUSHIONS

The back cushions are also fixed (sewn in). You will find the back cushions to be very, soft and comfortable as we fill them each completely with 100% super soft Dacron. You will discover that this material will envelope you and hold consistency year after year after year.

LEATHER

We only use 100% GENUINE Italian leather in all of our collections. We stock the Mark group in a beautiful 150 Whiskey color. This leather has so much character. It is "distressed" in nature and will show beautiful movements of brown, black and cognac through the depth of the leather. The leather is semi aniline which means we incorporate a polyurethane protective finish in addition to beautiful, colorful character.

KEY POINTS

The Mark group has always been a best seller. The comfort is exceptional and the price is outstanding. This is a classic retro style and the leather is "antiqued" and "distressed" which adds character. The leather color and style will allow the group to always be in style.
