

SOHO GROUP / CHARLESTON COLLECTION

FRAME

The Soho group is made of **SOLID HARD ROCK** maple. This is one of the hardest woods known and is considered to be the elite in furniture framing. You will also find that the frames are double padded inside and outside. The Soho group also has an adjustable leg that allows you to adjust the seat height of the sectional

SUSPENSION

We incorporate **EIGHT** gauge sinuous **NO SAG** springs in the seating deck of this group. You will find that there are five springs under each seat that are stretched two inches apart which will no doubt last many, many years to come.

SEAT CUSHIONS

The Soho group has an outstanding seat cushion. It is composed of 100%, 2.0 polyester foam. You will find that each cushion does not only have a dacron topper but is **FULLY** encased in super soft dacron which is for softness and durability. The seat cushions are fixed (sewn in) and they have a zippered compartment for easy access if you wish to add foam years from now.

BACK CUSHIONS

The fixed (sewn in) back cushions are also 2.0 density (highest quality) polyester foam. They are also completely encased in a super soft dacron wrap. The back cushions are "**self adjustable**", which means they are made 10 inches thick at the bottom which allows the consumer to apply their on body weight for comfort. It does not matter if you are tall or short, you control the comfort. You will not have a hollow spot at your lower back no matter how tall or short you are.

LEATHER

We only use 100% **GENUINE** Italian leather on all of our collections. The Soho group is available in 2580 Vanilla or 2590 Black. These are very versatile leathers, which will fit most any décor. These leathers are semi aniline, which means we incorporate a polyurethane protective finish in addition to beautiful, colorful character.

KEY POINTS

The Soho group gives us a very clean transitional/contemporary group, upholstered in a beautiful vanilla or black leather. The scale and design will serve your customers very well in urban apartment living and well as more contemporary environments. This group also has "**self adjustable**" back cushions for individual comfort and "**self adjustable**" legs that allow you to control the seat height.
